RISE 2 Transformative outcomes and operational principles

USAID's Resilience in the Sahel Enhanced 2 (RISE 2) results framework indicates the results required to achieve the project goal of **Chronically**

pursue sustainable pathways out of poverty. As identified in the results framework, all RISE 2 implementing partners will be expected to address cross-cutting issues of gender and youth, risk management, and governance. In addition, all RISE 2 activities must work toward the following transformative outcomes and apply the following operational principles:

Transformative development outcomes

- **Enhanced community leadership of local development**
- **Enhanced social capital through strengthened ties of mutual assistance among people**
- **Enhanced capacity to learn and adapt among beneficiaries, local partners, and partner governments**

Operational Principles

- **Community-led development** – Through dialogue, support communities to develop and implement priority actions that address core challenges and opportunities
- **Systems strengthening** - Analyze and seek to strengthen formal and informal systems that build resilience and improve well-being
- **Inclusive targeting** - Support the poorest households by responding to their specific needs, enhancing their aspirations, and strengthening their ability to access resources and services to pursue pathways out of poverty
- **Collaboration for collective impact** - Seek active collaboration among RISE 2 implementers, host country governments, community leaders, the private sector, civil society, USG agencies and partners, international agencies, and donors to collectively benefit chronically vulnerable populations
