FROM THE AMERICAN PEOPLE

COUNTRY DEVELOPMENT COOPERATION STRATEGIES

Providing a roadmap for project design and implementation

One size does not fit all when it comes to foreign assistance. Working together, U.S. Government agencies can provide assistance more effectively.

A Country Development Cooperation Strategy (CDCS), typically a five-year strategy, defines a Mission's chosen approach in a country, articulates the self-reliance trajectory, and details expected results. The CDCS provides a roadmap for how USAID will design and implement projects and activities. Through a whole-of-Agency approach, USAID is reorienting its business model to foster self-reliance within our partner countries. We anticipate all CDCSs will be completed by December 2020. Please find below more details on the timing for the development of new CDCSs. Updated documents will be added as they are available.

Wave*	Country	CDCS Completion Year
Wave-1	El Salvador	2020
Wave-1	Ethiopia	2019
Wave-1	India	2020
Wave-1	Liberia	2019
Wave-1	Philippines	2019
Wave-1	Ukraine	2019
Wave-2	Azerbaijan	2020
Wave-2	Bangladesh	2020
Wave-2	Guatemala	2020
Wave-2	Jordan	2020
Wave-2	Kosovo	2020
Wave-2	Lebanon	2020
Wave-2	Malawi	2020
Wave-2	Rwanda	2020
Wave-2	Vietnam	2020
Wave-2	Zambia	2019
Wave-2	Colombia	2020
Wave-2	Georgia	2020
Wave-2	Jamaica	2020
Wave-2	Mexico	2020
Wave-2	North Macedonia	2020
Wave-2	Peru	2020
Wave-2	South Africa	2020
2020	Armenia	2020
2020	Dominican Republic	2020
2020	Egypt	2020
2020	Ghana	2020
2020	Honduras	2020
2020	Indonesia	2020

2020	Kenya	2020
2020	Kyrgyz Republic	2020
2020	Madagascar	2020
2020	Mali	2020
2020	Moldova	2020
2020	Morocco	2020
2020	Nigeria	2020
2020	Senegal	2020
2020	Tanzania	2020
2020	Timor-Leste	2020
2020	Bosnia & Herzegovina	2020
2020	Cambodia	2020
2020	DRC	2020
2020	Guinea	2020
2020	Mozambique	2020
2020	Nepal	2020
2020	Niger	2020
2020	Serbia	2020
2020	Somalia	2020
2020	Sri Lanka	2020

*In 2018 and 2019, USAID selected several field Missions to pilot a new CDCS development process to anchor strategies in self-reliance approaches (known as Wave-1 and Wave-2 Missions). In addition to these early CDCSs, several CDCSs will begin and complete development in 2020.
